Reduced dwell translates into faster, more reliable cycle times and better service.

A diversion in an order from the shipper or consignee to deliver car(s) to other than the original billed destination. If change requires the car to move over track that it has already traveled (back haul), the car may be diverted to the next logical terminal. From there, new shipping instructions (new Bill of Lading) will be required to move the car from its current location to the new destination.

A bill of lading, or other suitable order, covering car(s) requiring clearance from all carriers in the routing will not constitute “forwarding instructions” until clearance is received from all carriers in the routing.

ITEM 70 **SECURITY DEPOSITS FOR PAYMENT OF CHARGES**

WSOR has the right to demand that a rail Customer (WSOR served shipper, loader, consignee or unloader responsible for the payment of demurrage), with a history of delinquency or nonpayment of freight, demurrage or other charges not in bona fide dispute, deposit with WSOR money or security adequate to pay an **average monthly invoiced services calculated over the past six months or a per car fee based on potential services**. (1) The deposit may be satisfied with cash, letter of credit, surety bond or other appropriate instrument. WSOR will determine the suitability of the security tendered. (All instruments on deposit are hereinafter referred to as "security")

If a WSOR invoice not in bona fide dispute is not paid when due, immediately thereafter WSOR will satisfy the bill by drawing against the security on deposit. Thereafter, the rail Customer will be required to reinstate the value of the security to its former level or to another level equivalent to its average monthly invoiced services or per car fee based on potential services.

Should demand be made upon a rail Customer for the deposit or maintenance of security as heretofore stated and should the rail Customer refuse or fail to deposit or maintain the security, WSOR may refuse to provide any further rail service until the deposit requirement is fulfilled. If service is refused and rail Customer is the subject of congestion, WSOR will issue an embargo against all rail transportation by WSOR to and from that rail Customer, so long as congestion exists or otherwise continues. In short, carrier may issue and maintain the embargo while the congestion exists, irrespective of rail Customer compliance or non-compliance with the Security Deposit provisions in this Item.

No interest will be paid by WSOR on any security or monies deposited with it. It is within the discretion of the WSOR to determine when creditworthiness of the rail Customer no longer necessitates the imposition of a security or deposit. If rail service to the Customer is permanently discontinued, upon satisfaction of all invoiced bills the security on deposit held by WSOR will be released and returned.

All claims not received within thirty (30) days will result in invoice being considered valid and prompt payment will be expected.

Improper Charges:

If, by error, demurrage or storage charges are improperly assessed, charges will be adjusted to the amount that would have accrued but for such error.

Unacceptable Claims:

Bunching and run around will not be considered railroad error and no allowance will be made.

Force Majeure:

Acts of God: In the event it is impossible for shipper, loader, consignee, or unloader to get to a car or to load or to unload a car due to acts of God, including, but not limited to flood, storm, earthquake, hurricane, tornado, or to other severe weather or climatic conditions, the demurrage directly chargeable thereto will be adjusted, provided the impediment is at least two (2) days in duration.
